Winchester Cathedral.

Dec 2nd

Dear Sir.

I expect you will remember
our short visit to this
Cathedral. it was all too short.
and perhaps you will remember
the Virjer who was much
with you, I am to promised to send
you a Card, when I am
sending one at Last I have
had to wait for our
Architect to turn out some

wood from the roof. and
Jan are one of the first
I remember having promised
me to. I have carried Jan
card in my pocket book
ever since.

The Wood is oak grown about
4½ miles away from here.
William I granted to the Bishop
who was building the Cathedral
wood from his forest as much
as he could cut and cart in
four days. He getting so many
men, chased the forest or wood

And the King when he saw what had happened ordered 32 Families to be pulled down, and he planted what is now known as the New Forest. It has been in our care since 1079 = 850 years roughly. I had about a dozen trees turned out of the remnants of Worm eaten beams. I hope you will

like it, dont part with it
as we shall get no more
money for ages.

I hope you and wife and
niece and family are
well. My best wishes to you
for Xmas.

Believe me

Faithfully yours

Albert J Adams.
